

The AJE Job Distribution Network

Where do my jobs go?

The AJE job distribution network encompasses a wide range of job boards, niche diversity sites, one-stop career centers and community-based organizations. Your AJE solution determines which of these outlets your jobs are distributed to.

Overview of our job distribution network:

AJE's Website Exchanges

- > **AJE Website**

State Job Board Distribution

(for **OFCCP Compliance Customers only**)

If you are a compliance customer your jobs are placed on the state job boards and sent to the appropriate state contacts as required by the OFCCP.

- > Jobs are posted to individual state job boards.
- > AJE compliance customers have a dedicated compliance representative who manages state job posting accounts including credential management.

One-Stop Centers and Community Based Organizations

- > 7,500+ Local Career and Community Organizations – your jobs reach local veteran and disabled reps (LVER/DVOPs), career counselors, business reps and minority advocates working directly with jobseekers.
- > Includes daily email and daily job feed to the appropriate job landing pages AJE created for each of these local organizations.
- > Customers can log outreach activities and view upcoming career events via AJE's dashboard.

Disability Websites

America's Job Exchange partners with two job boards operated by disABLEDperson, Inc., a 501 (c) 3 Public Charity whose mission is to reduce the unemployment rate of individuals and veterans with disabilities.

- > JOFDAV.com
Job Opportunities for Disabled Veterans (JOFDAV) is the premier site helping Disabled American Veterans find jobs.
- > DisABLEDperson.com
Leading job board for people with disabilities who are seeking employment opportunities.

TalentCast - Enhanced Job Promotion*

AJE allocates a nominal baseline job advertising spend to provide a boost in traffic to your recent job openings.

- Sites include mix of job boards, targeted niche sites and diversity sites.

** job distribution through the TalentCast Network is not fixed and depends on multiple variables including total job distribution flowing through the network at any given time and your AJE solution.*
